ABOUT ME

Highly motivated final year student of Internet Technology at the ICT College of Vocational Studies. Throughout my education, I have established a strong foundation in Programming and Networking. Also thanks to my high school where I had a lot of small internships at Hotels and Travel Agencies I have gained a lot of communication and team skills. On the other hand during College I have gained so many computer-related skills and even took some subjects for communication and management to learn to use my skills in a team working environment. Now I'm ready to find an internship or work where I can use these skills and learn even more.

WORK EXPERIENCE

01/08/2019 – 01/04/2021
